Graphing Absolute Value Equations.ks-ia2 - Kuta
This is an inequality. Where the solution to an absolute-value equation is points (like in the graphic above), the solution to an absolute-value inequality (or "inequation") is going to be intervals. ... In this inequality, they're asking me to find all the x-values that are less than three units away from zero in either direction, so the solution is going to be the set of all the points that are ...

Infinite Algebra 2 - 5.1: Absolute Value Equations and ...
An absolute value inequality is an equation of the form Where A, and sometimes B, represents an algebraic expression dependent on a variable x. Solving the inequality means finding the set of all - values that satisfy the problem. Usually this set will be an interval or the union of two intervals and will include a range of values.
