Designing The High Line Gansevoort

Designing the High Line speaks to me both as a landscape architect interested in the technical aspects of the project, and as a city wanderer joyfully visiting the High Line park in all seasons. Chock full of historic photos of the High Line, context maps, technical plans and information, and evocative design renderings.

The High Line is a 1.45-mile-long (2.33 km) elevated linear park, greenway and rail trail created on a former New York Central Railroad spur on the west side of Manhattan in New York City. The High Line's design is a collaboration between James Corner Field Operations, Diller Scofidio + Renfro, and Piet Oudolf. The abandoned spur has been redesigned as a "living system" drawing from multiple ...

High Line - Wikipedia

The Highline is an abandoned 1.45 mile section of the former elevated freight railroad of the West Side Line that runs south from 34th Street near the Javits Convention Center to Gansevoort Street in the West Village. Built by the New York Central Railroad in 1930, the original 13-mile long project was designed to go through the center of blocks, connecting directly to factories and warehouses.
