Display Last Year January To March Life Science Past Exam ...

One more question: the last year's YTD shows the amount for the whole month. For example, when I see sales from August 2019, the value represents the sales from the 1st to the 31st of given month. Is there any way to show the sales up to today's date one year ago (Aug 14th), so I compare sales from 01-14 AUG 2020 to 01-14 AUG 2019? Thank you!

Solved: How to display Last Year sales but not accumulated ...

In this blog, we will understand how we can find employees hired last month or year. We will understand DATEDIFF function in SQL server. The DATEDIFF function is used to calculate the difference between two dates.
