Fortunately the scanner software built into OSX, including so far my experience with Catalina, supports most scanners in its own limited way, including transparency scanner function. Vuescan taps into the same resources and may or may not be a better alternative than what Apple gives you, sticking to Mojave may just be the best alternative if the OEM software is vital to you.

Super nice scanning software, saved me from buying a new scanner. Fujitsu refuses to support my old - still perfectly working - scanner on Mac OS Catalina, but VueScan brought it back to life. It even offers more settings and is much faster than the original software. Thank you so much, Hamrick Software, you made my day! See review on Facebook
