"Hearing the Movies: Music and Sound in Film History asks students to consider music in the context of the whole soundtrack; that is, in conjunction with sound effects and dialogue. This is a novel and wonderful approach, as the authors incorporate aspects of film sound theory--critical terminology in particular--into the study of film

The theater provides hearing loss patrons with a flat panel that can rest in a cupholder that reflects captioned letters on a separate smaller projector. This way, a patron with hearing loss can read all of the words throughout the film right in front of them instead of being located on the actual movie screen. Subtitle glasses
