Joseph Babinski A Biography

Joseph Jules François Félix Babinski (Polish: Józef Julian Franciszek Feliks Babiński; 17 November 1857 – 29 October 1932) was a French-Polish professor of neurology. He is best known for his 1896 description of the Babinski sign, a pathological plantar reflex indicative of corticospinal tract damage.

Joseph Babinski - Wikipedia

In early 1896, Babinski outlined the finding that became known as the Babinski sign. With Joseph Babinski, Philippon and Poirier aim to provide the first significant and authoritative biography of one of the most important pioneers in neurology. Both authors are former heads of department—neurosurgery and histology, respectively—at the Pitié-Salpêtrière Hospital in Paris, where Babinski ...

Joseph Babinski: a biography - The Lancet Neurology

edited by Jacques Philippon and Jacques Poirier , 472 pp., Oxford University Press, 2009, \$49.95 The Babinski sign is probably the most recognized medical eponym in the world. The “toe sign” immortalized his name; it has been my experience, however, that many neurologists are not aware that terms such as diadochokinesia, asynergy, or anosognosia were coined and introduced to clinical ...
