The module HM-10 mostly helps with Arduino because there's a lot of work done on the module with this board. To use the HM-10 the following library is helping to communicate. #include <AltSoftSerial.h> During using the HM-10 the board may sometimes need to use the serial communication which can affect the Bluetooth.

HM-10 Bluetooth Module Pinout, Applications, Interfacing ...

setup the system carefully according to this manual. Allow sufficient time for the setup procedure and check each step carefully. Watch for a mechanically clean and proper build of your helicopter. A wrong system setup can lead to a serious accident and damage to the model. • Radio controlled (R/C) models consist of several electrical components.
