His work from the beginning was central to critical approaches to inequality and power in anthropology, development, and Latin American studies (including the work of Latin Americans). He was a towering figure in the scholarly New Left, his thinking both shaping and being shaped by the transition from the chill of the 1950s into the revolutionary 1960s and 1970s.

Eric R. Wolf - Anthropology - Oxford Bibliographies

Franz Boas' major contribution to anthropology was his denial of race as a biological construct. During the late 19th century, anthropologists used biological features to justify racial divisions. Boas disagreed with this and proved that physical features are a result of evolution in one's environment, not evidence of human species.

What Is Franz Boas' Major Contribution to Anthropology?

While Radcliffe-Brown founded the Institute of Social and Cultural Anthropology at Oxford, according to Rodney Needham his absence from the Institute during the war years prevented his theories and approach from having a major influence on Oxford anthropology. Work. He has been described as "the classic to Bronisław Malinowski's romantic".

Alfred Radcliffe-Brown - Wikipedia

Basic Personality Structure Approach This approach was developed jointly by Abram Kardiner and Ralph Linton in response to the configurational approach. Kardiner and Linton did not believe that culture types were adequate for differentiating societies. Instead, they offered a new approach which looks at individual members within a society and then compares the traits of these members in order ...

Culture and Personality - Anthropology

The anthropology of childhood is a relatively new field for anthropological study which emerged in Britain during the 1970s and contrasts with the earlier culture and personality studies conducted by American anthropologists such as Margaret Mead during the 1940s and 50s. These studies were primarily interested in exploring how processes of socialisation and cultural transmission take place ...
