### Piper Cherokee Arrow Iii Information

Decades later, and more than 6,000 units after the Piper Arrow was introduced, it is still in Piper's new-product lineup. The Arrow may be a good choice for a pilot with little complex aircraft experience or one who does not fly often. It was designed to be an easy step up for pilots transitioning from a trainer to a single with retractable landing gear and controllable-pitch propeller. The primary reason is that the Arrow is a simple retractable to fly.

### Piper Arrow - AOPA

In 1977, Piper introduced the Arrow III (PA-28R-201), which featured a semi-tapered wing and longer stabilator, a design feature that had previously been introduced successfully on the PA-28-181 and provided better low-speed handling.
