NOTE: for this context to make sense, N § 12. b. One possible way to check that the solution is correct is to put the value for N, 17, into each equation, solve for cost and see if both equations have the same value. c. The point on the graphs at which the two lines intersect is the number of tiles for which the cost estimates are equal. Using a

Kroger sued by former employees over LGBTQ symbol ...

Kroger, one of the country's largest supermarket chains, is being sued in federal court after two former employees claimed they were wrongfully terminated for refusing to wear an apron with a rainbow symbol.. The ex-employees, who identify as Christian, cited religious objections in their refusal to wear what they believed was an "endorsement of the LGBTQ community," according to the lawsuit.
