In 1914 the Russian Army actually had the highest ratio of machine guns to troops of any major power, 2.2 pieces per thousand men, at a time when the next best ratio was the Germany Army's 1.3. The principal stumbling block to this was in the sheer scale of the need to arm millions with an overtaxed and backward industrial complex that struggled to produce thousands.

The Imperial Russian army of 1914 | World History

During the Napoleonic era, Russia possessed a vast force of cavalry, forming a greater percentage than that of most European armies. This stemmed partly from their service against the Turks, who had huge numbers of troops, and partly from the fact that much Russian terrain was suitable for the manoeuvre of large bodies of cavalry. This companion volume to Men-at-Arms 185 examines the ...
